This bulletin highlights key statistics about the Cultural and Creative Industries taken from UK Government sources.

This bulletin is updated with the most recent versions of each dataset each quarter.

The date for each expected update is also highlighted for each statistic.

Sector definitions of the Cultural and Creative Industries are taken from definitions provided by the Department for Culture, Media and Sport (DCMS).¹ Figures are generally reported separately, and there is significant overlap between the two sectors.

¹ DCMS (2022) DCMS Sectors Economic Estimates Methodology. Available at: <https://www.gov.uk/government/publications/dcms-sectors-economic-estimates-methodology>. N.B. definitions of the Creative Industries may vary across the devolved nations; for example, Creative Wales excludes 62.02 (computer consultancy); see Creative Wales (2025) Creative Sectors. Available at: <https://www.creative.wales/creative-sectors>. The DCMS criteria are used to allow for standardised comparisons to be made across variables and against third-party research, such as: Fodor, M.M., Komorowski, M. and Lewis, J.
